Present:
Cary A. Hardee, Governor.
Ernest Amos, Comptroller.
J. C. Luning, Treasurer.
R. H. Buford, Attorney General.
W. A. McRae, Commissioner of Agriculture.

Mr. Luning introduced the following resolution and moved its adoption:

WHEREAS, By reason of this being the first meeting after the change of the administration for the Trustees of the Internal Improvement Fund to organize themselves as a working body, by reason of the fact that the retiring Governor was Chairman of this body;

THEREFORE, BE IT RESOLVED, That this body organize by the selection of Hon. Cary A. Hardee, the present Chief Executive and a member of this body, be selected to serve as Chairman of said body for the ensuing four years.

BE IT FURTHER RESOLVED, That any meeting of this body held during the absence of the selected Chairman, the member of the Board of Trustees being designated con-
secutively in the Act creating the Trustees of the Internal Improvement Fund shall automatically act as Chairman at said meeting, thus obviating the necessity for the selection by this body of a Chairman pro tem. at every meeting at which the Chairman may not be present.

Upon motion the resolution was unanimously adopted.

The Trustees having on November 3, 1920, ordered the advertisement of 111 acres of submerged lands in St. Johns River, Duval County, Florida, for sale, and notice of such sale having been advertised once a week for five consecutive weeks in a newspaper published in the county in which said lands lie, as required by law, to-wit: The Florida Times-Union, and affidavit of such publication being filed with the Secretary of said Trustees, Mr. McRae moved that bids be opened. Seconded by Mr. Amos and upon vote adopted.

The following bid, accompanied by certified check for $1,000.00, was read: Robert R. Milam, $405.00 per acre. No other bids received. The Chairman stated if there were any objections to said sale, the Trustees would consider same.

City Attorney P. H. Odom, City Health Officer W. W. MacDonnell, and City Engineer Frank Edwards, representing the City Commissioners of the City of Jacksonville, and a delegation of Jacksonville citizens, many of whom were owners of water front property of Riverside, protested against the sale of said submerged lands, on the grounds of health and depreciating the value of land owners along the St. Johns River, adjacent to said submerged island; further protecting the validity of the law authorizing the sale of said lands, numerous petitions signed by citizens were presented and filed with the Trustees.

Mr. George M. Powell, representing Mr. Robert R. Milam, the bidder, stated that the property, when bulk-headed and filled in would be used strictly for residential purposes and would improve the health conditions, navigation, the value of the property fronting on the river, etc., and had Mr. Joseph A. Craig, Engineer, and Dr. Geo. W. Sommons, of the State Health Board, who were present, make statements. They were of the opinion that the improvements of the submerged lands would be advantageous to health, navigation and values of property adjacent to said submerged land. Mr. Robert R. Milam said he was of the
opinion that the objections offered were not sufficient to be considered, and asked the Trustees to accept his bid. After consideration the Trustees decided to take the matter under advisement.

Upon motion, duly adopted, the Trustees adjourned.

CARY A. HARDEE, Governor, Chairman.

The report of J. W. Williams on inspection of timber cut in Lake Ocheesee, Jackson County, was read and ordered filed.

The following Resolution was introduced:

RESOLUTION

WHEREAS, The Trustees of the Internal Improvement Fund of the State of Florida advertised and offered for sale on the 20th day of January, A. D. 1920, and also on the 14th day of December, A. D. 1920, certain lands in Broward and Dade counties, title to which had vested in said Trustees under Chapter 7305, Laws of Florida, and accepted bids of former owners for said lands; and,

WHEREAS, Deeds were issued for same on said 20th day of January, A. D. 1920, and 14th day of December, A. D. 1920, and ordered held on account of a Restraining Order having been issued by the Judge of the Circuit Court of the 15th Judicial Circuit of Florida, in the case
of the Everglades Land Sales Company against Frank A. Bryan, et al.; and,

WHEREAS, This case was carried to the Supreme Court of Florida, which Court did on the 2d day of February, A. D. 1921, hand down its decision, which among other things dismissed the said cause, thereby dissolving the said Restraining Order; now, therefore,

BE IT RESOLVED, By the Trustees of the Internal Improvement Fund of the State of Florida, that the deeds aforesaid be executed and mailed to the purchasers.

Upon vote the Resolution was adopted.

Mr. J. B. McCrary, of the J. B. McCrary Engineering Company, appeared before the Trustees and stated that in building the Tamiami Road from Miami to the Monroe County line his company had built 22 miles from the point of beginning, and in constructing said road had used a floating dredge which made a canal from 28 to 30 feet wide and 7 to 8 feet deep along said road, but it would be considerably cheaper in building said road to discontinue the use of the floating dredge and use a Caterpillar Steam Shovel, this change being made possible by the different class of material encountered in this locality, which is marl and rock and not deep muck and rock previously encountered, and if such a change was made there would be no canal along said road for the last 12 miles through lands owned by the State; and further stated that if the Trustees would aid in the work he would continue the floating dredge, making a canal 28 feet wide and 5 to 6 feet deep along said road through the State's land.

After discussion, and upon statement from the Chief Drainage Engineer that such a canal would be a part of the future drainage project, Mr. Buford moved that the Trustees have said canal constructed and same be paid for in lands on the basis of 5,000 acres of land for 11 miles of canal; payments in lands to be made as each mile of canal was completed, and that four sections of said land be in Township 54, Ranges 35 and 36 east, and the remainder from other lands in Dade County, all lands to be selected and agreed on at a later date.

Those voting yea, Governor Hardee, Comptroller Amos, Attorney General Buford; those voting nay, Treasurer Luning, one. So the motion was adopted.
It was agreed to give Mr. McCrary several days in which to confer with his associates before accepting the foregoing.

Financial Statement for the month of February, 1921, was presented by the Secretary and ordered placed of record:

The Trustees of the Internal Improvement Fund met on this date in the office of the Governor in the Capitol.

Present:

- Cary A. Hardee, Governor.

Mr. C. C. Chillingworth appeared before the Trustees and stated that a client of his was desirous of purchasing a partly submerged tract of land known as "Lone Cabbage Island," in Lake Worth, lying in Section 27, Township

The Trustees decided that they would have the Chief Drainage Engineer make a survey of said submerged tract to ascertain the correct acreage contained therein, and would advise Mr. Chillingworth as to their decision upon the report of the Engineer.

Upon motion the Trustees adjourned.

The following Resolution was presented and adopted:

WHEREAS, It has been represented to this Board that certain negotiations are now in progress for the sale of the Florida Coast Line Canal to certain persons, Abraham Friedman, William D'Oench and Harman Duhme, Jr., who propose to place an efficient line of especially designed freight vessels in service on the waterway now controlled by said Company; and

WHEREAS, It is believed that the success of the negotiations above mentioned will insure the maintenance of said Canal and render unnecessary the prosecution of the suit now pending; and

WHEREAS, The existence of this suit may cause the negotiations for the sale of the Canal to the parties above named, and the establishment of a useful freight service, to fail, it is hereby

RESOLVED, That the Attorney General be authorized to give assurance that in the event of the successful outcome of the negotiations resulting in the transfer of the Canal property to parties now holding option, and upon the establishing of a transportation line, operating by the use of suitable freight and passenger steamers on the said Canal as described in the option now standing in behalf of
Friedman, D'Oench and Duhme, the said suit will be discontinued, upon payment of all costs accrued, by the Canal Company, without prejudice to the right of the Board to revive it should such action become necessary at any future time.

The Special Counsel was instructed to collect all past due accounts for lands purchased from the Trustees, except where the Trustees had granted extensions.

Upon motion, duly seconded, the Trustees adjourned.

The Trustees of the Internal Improvement Fund made application to the Secretary of War April 17, 1912, for connecting four drainage canals with Lake Okeechobee.

On May 29, 1912, permit was issued by the Secretary of War to the Trustees for connecting said four canals, and the permit contained certain conditions for connecting said canals, among which is the following:

"Section 4. That the United States reserves the right to require the closing of the gates and valves at any stage of the lake as may be necessary in order to insure the lowest level of the lake not falling below elevation 16."
The level of sixteen (16) feet was decided upon by the War Department as a low level which would not impair the navigability of Lake Okeechobee. At the time that this level was decided upon the conditions then existing were as follows:

Ordinary level of Lake Okeechobee, 20.5 feet.
Overflow level of Lake Okeechobee, 21.5.
Low level not accurately known.
Information indicates that the lake has reached stage 17 prior to 1912.
Elevation of land around Lake Okeechobee, 21½ to 22 feet.
Margin of control of Lake Okeechobee based on minimum water level of 16 feet and land level 21½ feet, 5½ feet.

By reason of the nature of this soil around Lake Okeechobee, a considerable settlement of the surface of the ground has taken place through drainage. This settlement amounts to from two to four feet, and it is certain that further subsidence will take place in time. To compensate for this subsidence, or the lowering of the land surface around Lake Okeechobee, it becomes necessary to lower the minimum control level of the lake in order that a safe margin may be preserved between the level of regulation and the overflow level.

Condition four of the permit should be modified so that elevation 14 will become the low level of control, and this should be done as early as practicable in order to prevent danger of overflow from attempting to maintain Lake Okeechobee at a level of 16 feet as provided by permit above described.

In view of the above, the Board authorized the Chief Drainage Engineer to prepare application for modification of Section 4 of the permit referred to, and to supplement the application by such data as would be necessary to show the conditions which have developed as above described. The Chief Drainage Engineer was authorized to take up the matter personally with the War Department and to go to Washington for this purpose as soon as practicable.

Upon motion, duly seconded, the Trustees adjourned.

Mr. McDuffie, representing Mr. Carl Fisher, who in 1919 purchased from the Trustees of the Internal Improvement Fund approximately ten (10) acres of submerged land in Biscayne Bay, Dade County, Florida, and Mr. Robineau, City Attorney of Miami, appeared before the Trustees relative to the said submerged land, the City of Miami claiming that part of the land deeded said Carl Fisher had been deeded said City of Miami in 1915 by quit-claim deed, when a strip 215 feet wide was requested by the City of Miami for a channel across Biscayne Bay. Mr. Robineau stated that the City of Miami wanted to purchase at a nominal price, for municipal improvements and ship channel, an additional strip across said Biscayne Bay to enlarge the present channel, and that should the Trustees deed such additional strip, any rights or claim the city may have to the lands sold said Carl Fisher in 1919, would be abrogated.

WHEREUPON it was agreed that upon the City of Miami furnishing the Trustees with a proper description of the submerged land desired, the same would be advertised as required by law and proper consideration would be given the bid of the city of Miami on date of sale.
Mr. Washington, Mayor of Safety Harbor, Florida, appeared before the Trustees and requested a permit to purchase shell for use in paving streets within the City of Safety Harbor; WHEREUPON the following permit was granted by the Trustees:

PERMIT

On the Part of the Trustees of the Internal Improvement Fund to the Town of Safety Harbor, in Pinellas County, Florida, for Taking Shell from the Bed of Old Tampa Bay, in Pinellas County.

WHEREAS, Under the provisions of Chapter 610, of the Acts of 1855, and Chapter 7304 of the Acts of 1917, Laws of Florida, all swamp and overflowed lands, sand bars and shallow banks and islands made by the process of dredging, or otherwise, in the tidal waters of this State, are vested in the Trustees of the Internal Improvement Fund, who have authority and control over the same and convey the said lands on such terms and conditions as they see fit; and

WHEREAS, There are certain shell beds in Old Tampa Bay in this State, covered by the provisions of the foregoing Acts, and the town of Safety Harbor, in Pinellas County, Florida, has made application to the Trustees of the Internal Improvement Fund to dredge oyster shell from the bed of the said Old Tampa Bay for the purpose of paving the streets and highways in the said town of Safety Harbor; and

WHEREAS, It has been the policy of the Trustees of the Internal Improvement Fund, where shell beds could be used for such works of internal and general improvement, to sell such shell as was needed therefor at the minimum price of five (5) cents per cubic yard. Now, therefore,

THIS IS TO CERTIFY That the Trustees of the Internal Improvement Fund of Florida authorizes the town of Safety Harbor, in Pinellas County, Florida, to dredge and take shell from the bed of Old Tampa Bay to the extent of ten hundred (1,000) cubic yards, or so much thereof as may be needed for the street improvement within the said town of Safety Harbor, subject to the following conditions:
1. That the town of Safety Harbor will pay to the Trustees of the Internal Improvement Fund five (5) cents per cubic yard for each cubic yard of shell dredged or taken from the bed of the said Old Tampa Bay, the amount of said shell so taken to be determined by actual measurement when unloaded from the barges or boats to be delivered to the said streets or highways of the said town.

2. The said town of Safety Harbor shall dredge or mine the said shell by its own agents at its own expense from such beds or points in the bed of Old Tampa Bay as it may deem advisable.

3. In removing the said shell from the bed of Old Tampa Bay, the town of Safety Harbor, its servants or agents, shall be careful to remove or dredge the same in a manner to prevent the piling up or accumulation of debris or other sediment in the bed of the said Bay that would in any manner interfere with navigation or obstruct the free passage of boats or other water craft up and down the same.

4. The Trustees of the Internal Improvement Fund of Florida hereby agree to furnish any other or further permit that may be necessary on their part to enable the town of Safety Harbor to secure such rights from the War Department as may be necessary to dredge for the said shell.

5. That this permit shall convey no property rights, but is confined to the consent only of the Trustees of the Internal Improvement Fund to the mining and dredging of such shell as may be desired on the part of the said town of Safety Harbor for its municipal improvement.

6. The Trustees of the Internal Improvement Fund hereby reserve the right to revoke this permit entirely, if, in the judgment of the said Trustees, conditions should arise which make such revocation necessary.

This PERMIT, duly issued by the Trustees of the Internal Improvement Fund, shall take effect by the signing of this and another instrument of like tenor and effect and date by the Mayor of the town of Safety Harbor, attested by the Town Clerk thereof, and approved by the President of the Town Council, whereby the said town of Safety Harbor accepts and binds itself as to this permit and to each and every condition thereof as hereinabove set out.

The Trustees having on April 26, 1921, directed Mr. Albert Buford to make a cruise of timber in the Dead Lakes, also an estimate of amount of moss, he submitted a detailed report showing that there was approximately 256,750 feet of lumber to be secured from standing trees, 186,000 from stump trees; 5,875 telegraph poles; 3,400 cross ties, all cypress; and approximately 95,500 feet of pine and about 75,000 feet of sunken cypress; also 319 tons of moss.
Mr. Buford suggested that if the Trustees should sell its timber right, the lines should be surveyed and marked by painting a good streak on the line trees, and estimated about fifteen miles to be retraced, and was of the opinion that the cost would be about $20.00 per mile and $300.00 to survey the pine lands.

WITNESSETH: That for and in consideration of the sum of One Dollar ($1.00) paid by the Company to the Trustees at the time of the execution hereof, and also the mutual undertakings and obligations of the parties to this agreement hereinafter set forth, said parties have covenanted and agreed with each other as follows:

1. That the Trustees will sell and convey to the Company, by good and sufficient deed of conveyance, free and clear of all liens and encumbrances, for the considerations and upon the terms hereinafter stated, the lands in Palm Beach County, Florida, described as follows:

2. That the Company will take and purchase the above described lands upon the terms and under the conditions hereinafter specified and in consideration therefor will:

6. That each of the parties hereto shall pay all the taxes, levies and assessments upon their lands up to and including the year in which the exchange of deeds is made pursuant hereto.

IN WITNESS WHEREOF, said parties have executed this instrument under seal in duplicate the day and year first above written.

WHEREAS, Chapter 8442, Laws of Florida, Acts of 1921, as follows:
"AN ACT providing for the establishment of an Agricultural Experiment Station in the Everglades of Florida; to provide lands and funds therefor and to define the powers and duties of the Trustees of the Internal Improvement Fund, the State Board of Education of Florida, and the Board of Control in relation to the same, and to repeal Sections 651 and 652 of the Revised General Statutes of Florida;" and

WHEREAS, Section 3 of said Act,
"Authorizes and directs the Trustees of the Internal Improvement Fund of Florida to set aside and withdraw from sale any lands now or hereafter owned by the State, necessary for the use and conduct of said Agricultural Experiment Station, and to provide and construct all canals, drains and other reclamation works that may be required to completely protect and secure the said canals from overflow. The said lands shall be as suitably and conveniently located as possible and should not be less than 160 acres, which may be added to as the needs demand;" and
WHEREAS, After investigation of the lands owned by the State, suitable for said Experiment Station, the Trustees of the Internal Improvement Fund are of the unanimous opinion that the land South of the Hillsboro Canal in Section 3, Township 44 South, Range 37 East, in Palm Beach County, is best adapted for such purposes as set out in the aforesaid Section 3, Chapter 8442, Laws of Florida, therefore,

BE IT RESOLVED, That all of Section 3 South of the Hillsboro Canal in Section 3, Township 44 South, Range 37 East, containing 160 acres, more or less, be and the same is hereby set aside for the use of an Agricultural Experiment Station in the Everglades, in compliance with Chapter 8442, Laws of Florida, Acts of 1921, and said Agricultural Experiment Station is hereby located and established on said described land.

Mr. C. L. Wilder appeared before the Trustees and requested permission to have the action of the Trustees of May 3, 1920, changed so that he might sub-lease or purchase (lands now leased by him subject to purchase) in tracts of 40 acres. After discussion it was unanimously decided to make no change in the former action of the Trustees.

The Trustees declined to make such refund and refused to grant such request.

Upon motion the Trustees adjourned.

Mr. Leitner appeared before the Trustees relative to lands in Sections 11 and 12 of Township 42 South of Range 32 East, as to the survey of same. This matter having been considered May 3, 1920, Mr. Leitner stated that his clients would like to receive the same consideration as squatters; that is, the right to purchase lands which they had improved under the impression that said lands were owned by them. The Trustees, after discussion, advised Mr. Leitner that they considered themselves under no moral or legal obligation to sell the lands to his company, but would sell to them when offered, providing all things were equal and the price satisfactory.

Mr. Luning moved that the Trustees pay to the State Board of Education $10,000.00, balance due said Board by the Trustees. The same was ordered, and the following bills approved and ordered paid:

the lands included and specified in this contract at the rate and price of Seven Dollars ($7.00) per acre. The first payment shall be made on the thirtieth day of December, 1921, and shall be in the pro-rated sum of $8,333.34, representing the fractional portion of the year from the date of the execution and delivery of this contract. In the event that PENNSYLVANIA shall exercise its right as provided in Paragraph Fifth hereof to terminate, cancel and rescind this contract to purchase said lands, then in like manner the yearly payment shall be pro-rated to the fractional portion of such year, extending from the thirtieth day of December to the date next following when PENNSYLVANIA shall so terminate this contract. The annual payments as specified shall not bear interest, except in case of default of prompt payment on the dates as specified. All payments shall be made at the office of the TRUSTEES in Tallahassee, Florida. Thirty (30) days' notice or demand in advance of each payment shall be sent by registered mail by the TRUSTEES to PENNSYLVANIA at Philadelphia, addressed to "Treasurer of Pennsylvania Sugar Company, care Real Estate Trust Company of Philadelphia." Neglect or failure to give such notice and demand shall operate only to extend without interest the payment, notice for which shall not have been so given, for the period of thirty (30) days after receipt of notice and demand for payment. PENNSYLVANIA shall have the right to anticipate any one payment or all payments or any portion thereof, specifically to be made under this contract.

THIRD. In addition to the agricultural development of said lands and the cultivating and growing of sugar cane thereon, PENNSYLVANIA agrees to erect, construct and operate upon the Everglade lands above mentioned, or upon other lands of the Company located in Townships fifty-one (51) and fifty-two (52), Ranges thirty-seven (37), thirty-eight (38), thirty-nine (39) and forty (40), or in the vicinity of said townships and ranges, a SUGAR CENTRAL consisting of sugar mill and factory and all plant, buildings, machinery, equipment and appliances thereunto appurtenant and necessary; the said CENTRAL to be constructed at a cost of not less than one-half million dollars ($500,000.00) when completed and ready to operate, including inter alia the cost of materials, labor, machinery and equipment, erection and construction, freights, insurance, and all expenditures and expenses in-
cidental or necessary. That the work of erection, construction and equipment of the said CENTRAL shall be commenced promptly after the execution and delivery hereof and be prosecuted by PENNSYLVANIA with diligence until final completion. Upon request of TRUSTEES, PENNSYLVANIA will furnish to them a sworn statement and itemized account, showing costs of the erection, construction, and equipment of said SUGAR CENTRAL, and the same shall be taken and conclusively deemed to be the actual cost to PENNSYLVANIA and the expenditure made by it as covering the stipulated minimum cost of the said SUGAR CENTRAL.

FOURTH. As a further consideration for this contract PENNSYLVANIA agrees to assume and pay promptly hereafter when and as the same fall due and become payable all drainage taxes levied upon the said lands from and after the year 1921 (but not including those for the calendar year 1921).

FIFTH. The TRUSTEES covenant and agree for the consideration herein stated that PENNSYLVANIA shall have, and is hereby given the unqualified and absolute right, option and discretion at any time during the continuance of this agreement to terminate, cancel, rescind and surrender this contract to purchase the above described lands, without any further liability whatsoever upon its part, and all the obligations and undertakings herein specified to be performed on the part of PENNSYLVANIA shall thereupon immediately cease and become of no further force and effect. Provided, however, that PENNSYLVANIA shall be liable for the pro-rated amount of the annual payment for any fractional portion of the year extending from the thirtieth day of December to the date next following when PENNSYLVANIA shall terminate and surrender this contract. In the event that PENNSYLVANIA shall exercise this right of cancellation and surrender it shall give written notice thereof by registered mail to the TRUSTEES at their office at TALLAHASSEE, FLORIDA, and shall execute such releases or other assurances in law or enter such satisfactions of record as the TRUSTEES may reasonably request. And provided, further, THAT PENNSYLVANIA shall be liable for the drainage taxes levied upon the said lands for the year in which the termination and surrender of this contract shall be made.
SIXTH. When PENNSYLVANIA shall have made payment in full for the said lands at the price of Seven Dollars ($7.00) per acre, either in the partial payments provided for at the dates herein mentioned, or at an earlier date, and also shall have paid the drainage taxes levied upon the said lands subsequent to the year 1921, then the TRUSTEES shall forthwith execute and deliver to PENNSYLVANIA a good and sufficient deed of conveyance for the above described lands, conveying a good and marketable title in fee simple, approved by counsel for PENNSYLVANIA, free of all liens, easements and encumbrances, taxes, charges and assessments (except the drainage taxes as hereinabove mentioned), with the usual covenants for quiet enjoyment and seisin.

SEVENTH. In the event that PENNSYLVANIA should neglect, fail or refuse to make full payment for the lands herein specified, or in case PENNSYLVANIA should terminate and surrender this contract under the provisions of Paragraph Fifth hereof, then all sums theretofore paid by PENNSYLVANIA to the TRUSTEES on account of this contract shall be retained by the TRUSTEES; Provided, however, That if all drainage taxes levied upon the said lands shall have been paid to the date thereof, then PENNSYLVANIA shall be entitled to receive from the TRUSTEES a deed of conveyance, free and clear of all encumbrances, of one acre of land for each Ten Dollars ($10.00) paid to the TRUSTEES by PENNSYLVANIA in a tract of not less than Ten Thousand (10,000) contiguous acres, to be selected by PENNSYLVANIA from the above described lands. Furthermore, that a conveyance of lands by the TRUSTEES to PENNSYLVANIA in such case shall constitute a final settlement so as to release both parties from any further liabilities or obligations under this contract.

It is further covenanted and agreed that after PENNSYLVANIA shall have paid to the TRUSTEES the sum of One Hundred Thousand Dollars ($100,000.00) on account of and under the terms of this contract that the TRUSTEES will then, upon the request of PENNSYLVANIA, execute and deliver to PENNSYLVANIA a deed of conveyance in fee simple free and clear of all encumbrances, of one acre of land for each Ten Dollars ($10.00) theretofore and which shall be thereafter paid to the TRUSTEES, in quantities of not less in any one deed than three contiguous sections (excepting Section 16 in Town-
ship 51 South, Range 38 East) of the above described lands. Provided, however, that all annual payments to the date or dates of all such requests shall have been promptly made to the TRUSTEES; and furthermore, that all payments for conveyance of lands made between the dates of annual payments shall be credited on account of the next payment or payments becoming due under this contract.

EIGHTH. It is agreed between the parties that the acreages enumerated above for the lands included under this contract are approximate acreages only and that the same shall be computed and adjusted when actual surveys of the lands are made. It is the intention of the contract that all of the lands owned and held by the TRUSTEES within the above mentioned Townships fifty-one (51) and fifty-two (52), Ranges thirty-seven (37), thirty-eight (38) and thirty-nine (39), and Townships fifty-one (51) and fifty-two (52), Range forty (40), are included within the terms of this contract of sale.

NINTH. The TRUSTEES covenant that during the continuation of this contract, they will not create any charge, easement, lien, encumbrance, or estate, in any form whatsoever, directly or indirectly, upon the lands hereinabove described. That they will at all times protect, save and keep harmless PENNSYLVANIA from any loss or damage arising from or by reason of any suits, liens, claims, demands, litigations or other controversies respecting the said lands, now appearing of record as against the same or which may be hereafter instituted; that they will at all times take all steps which may be necessary to defend such suits, liens, claims, demands, litigations and controversies; and that they will undertake all measures necessary to remove all clouds upon the title of the said lands; that in the event of a recovery or judgment being obtained in any suits or litigations against the TRUSTEES so that the said lands shall become liable to satisfy any of such judgments, claims or demands, the TRUSTEES will promptly pay or cause to be paid the full amount thereof, with all costs and charges thereon assessed, so that the said lands shall be free, clear and unincumbered of any and all liens, claims, demands or clouds on the title thereof, and so that PENNSYLVANIA shall have and enjoy a good and marketable title to the said lands up to and including the date of the conveyance of the said lands by the TRUSTEES to PENNSYLVANIA. The TRUSTEES also agree that they will promptly procure a full release and dis-
charge of all the sections of the above described lands which may be involved or in controversy in the litigation instituted and pending by the Executors and Trustees of the Estate of Richard J. Bolles, deceased, against the Trustees of the Internal Improvement Fund of the State of Florida.

TENTH. It is covenanted and agreed that PENNSYLVANIA may assign and transfer this contract to any person, firm or corporation, and upon such transfer and assignment such person, firm or corporation shall be seized, vested, have and possess all the rights which PENNSYLVANIA has under the terms of this contract, and shall be bound to perform each and every covenant and obligation herein stipulated to be performed on the part of PENNSYLVANIA, which shall thenceforth and thereafter be discharged of the performance of its duties and obligations under this contract.

ELEVENTH. It is further mutually covenanted and agreed that this contract and all the covenants, undertakings and stipulations herein contained shall be binding upon all the singular the TRUSTEES and their successors in office and likewise upon PENNSYLVANIA, its successors and assigns.

This agreement shall be duly acknowledged and shall be forthwith recorded in the proper counties of the State of Florida.

IN WITNESS WHEREOF, the said TRUSTEES have hereunto set their hands and caused the seal of the Trustees of the Internal Improvement Fund of the State of Florida to be hereunto affixed, duly attested, and the said PENNSYLVANIA SUGAR COMPANY has caused its common or corporate seal to be hereunto affixed by their proper officers, the day and year first above written.

After discussion the Trustees agreed to advertise the land as required by law, PROVIDED, Mr. Gramling and Mr. Klober would agree to bid not less than $100.00 per acre when offered for sale, and upon a plat showing the exact location and acreage of said land.

The Trustees, having on September 19, 1921, advertised a certain submerged tract of land in Biscayne Bay, Dade County, Florida, containing 1.4 acres, for sale on this date and the same having been advertised as required by law in the Miami Herald, a newspaper published in the County in which the said land lies, and affidavit of such publication having been filed with the Trustees, and no person or persons having made any objections to such sale, the bids were ordered opened. The bid of Alton Beach Realty Company of Miami of $1,000.00 per acre was accepted, and the Hon-
orable Commissioner of Agriculture was requested to issue deed to The Alton Beach Realty Company.

Mr. Luning, State Treasurer, stated that the note of $13,000.00 due the Atlantic National Bank of Jacksonville, on November 1, 1921, should be paid, and moved that the Trustees loan the Board of Commissioners of Everglades Drainage District the sum of $13,000.00 at 6 per cent interest. Motion was unanimously adopted.

Williams filed his report as to trespass on lands in NW¼ of NW¼ of Section 14, and NE¼ of NE¼ of Section 15, Township 2 South, Range 13 West, which showed that Mr. McBride had cut 2,250 turpentine boxes on the same, which at $50.00 per thousand would be $112.50; interest on same twelve and a half years at 8 per cent, $112.50, and he had collected the amount of $225.00, subject to the Trustees' acceptance. It was moved that the report be filed and the amount accepted for trespass on said lands. The motion was adopted.

The Secretary read a letter from the J. B. McCreaary Engineering Corporation, relative to granting them a pro rata part of lands for road and canal construction on the Tamiami Trail in Dade County. The Trustees having on September 20, 1921, granted said corporation an extension of thirty days to accept a certain amount of lands for the construction of a canal of certain dimensions, as set out in a resolution dated March 9, 1921, and the said corporation having failed to avail themselves of the said extension, the same expired October 20, 1921. The Secretary was instructed to advise the J. B. McCreaary Engineering Corporation that the Resolution and extension was hereby declared abrogated.

The Counsel of the Trustees presented the Agreement between the Trustees of the Internal Improvement Fund and the Trustees of the Bolles Estate, for the release of the Notice of the Lis Pendens on certain lands therein described, purchased by the Pennsylvania Sugar Company October 15, 1921, which agreement was approved and executed by the Trustees of the Internal Improvement Fund.

Mr. H. H. Hart appeared before the Trustees relative to the purchase of certain Bay Bottom or submerged lands in Biscayne Bay, Dade County, containing approximately 18 acres. After discussion it was agreed that said lands would be advertised as required by law, provided Mr. Hart would agree to bid not less than $500.00 per acre for same when offered for sale. Mr. Hart further stated that he had a client who was desirous of purchasing five townships of land and requested the Trustees to set a price upon same. It was agreed that the Trustees would accept $15.00 per acre for two of said townships and $10.00 per acre for two, upon terms of one-fifth cash and four annual payments of one-fifth each, with eight per cent interest on
deferred payments, but would not consider the sale of Township 47 South, Range 36 East. Mr. Hart stated that he would take the matter up with his clients and advise the Trustees.

The following bill was approved and ordered paid:

R. B. McLendon, Tax Collector, Dade County, Miami, Fla., balance due on Southern Sub-Drainage District tax on lands of the Trustees ........................................ $ 5,563.50

The following communication from George H. Earle, President of Pennsylvania Sugar Company, was received, submitted to the Trustees by its Counsel, and read in full:

"November 18, 1921.

Trustees of the Internal Improvement Fund of the State of Florida, Tallahassee, Florida.

Gentlemen:

I am writing to confirm the arrangements made between the Pennsylvania Sugar Company and your good selves at the meeting which we held in Tallahassee on November 3d last. We have not written you before about the matter because we were waiting to receive necessary documents and papers from the Tatum Land Company at Miami. They have come to hand this morning and we now wish to carry out our further part of the financial program, which we trust will be of assistance to your Board in meeting its financial requirements. The matter is so simple that I feel that this letter will be sufficient, with a like confirmation from yourselves.

Stated in propositional form, the arrangement, according to my recollection, was as follows:

First. We gave you on November 3d our cheque in the sum of $53,000 and odd dollars. $3,000 of this amount was to take care of the balance of the payment scheduled for December 30, 1921, under the contract of October 15, 1921, for the 62,000 acres of Everglade lands mentioned in said contract. The sum of $50,000 of said amount was advanced by our Company to your Board as a payment not yet due under the aforesaid contract, but voluntarily made and anticipated in order that we might thereby reciprocate your many helpful and wise efforts to enable us to conduct
and continue our experiments looking to the development for sugar purposes of Florida Everglades lands, and in consideration for the release and exchange of sections as hereinafter set forth. As a result of this anticipated payment, the said contract of October 15, 1921, will henceforth run in its payments for the period of approximately seven instead of eight years. Subject to all the terms of the contract, and particularly to our reserved right of withdrawal, we will continue to make our payments each year on December 30th. Of course in all its other terms and conditions, the said contract of October 15, 1921, remains unaltered and unmodified.

Second. We are handing you today, through your Special Counsel, Senator Glenn Terrell, our cheque drawn to your order in the sum of $50,000. In accordance with the arrangements made at the meeting on November 3, 1921 (at which Mr. S. M. Tatum and Mr. B. B. Tatum were present, together with our Mr. McCarthy and Mr. Barnes and myself), this cheque is the proceeds of a $50,000 loan to the Tatum Land Company, the same to be secured by mortgage from the Tatum Land Company to our Company as a first lien on 3,200 acres, and a second lien on 28,000 acres of Everglade land. It was, and is now, stipulated that the proceeds of this mortgage loan to the Tatum was to be paid to your Board, and sections of land at the released price specified in the mortgage are to be released from the lien of the mortgage between Tatum Land Company and the Trustees made in 1917. A description of the lands so to be released by the payment of this $50,000 will be furnished you by the Tatum Land Company and our Company in due course as soon as we have had an opportunity to communicate with them. Also we will forward to you through the Tatum an exact description of the sections upon which the mortgage to your Board is to be placed, and those sections which in exchange therefor are to be released.

Third. At the said meeting of November 3, 1921, in order to carry out the arrangement of which the above payments are a part, your Board agreed to take mortgage lien upon approximately 26 sections of land belonging to the Tatum Land Company located generally in Townships 49 and 50, Ranges 37 and 38, which
have been heretofore released from the mortgage between the Trustees and the said Tatum Land Company. In return for said mortgage lien, you agreed to release an equal number of sections (section for section) of lands belonging to the Tatum Land Company still under the lien of the said mortgage, which lands are located generally in Townships 45 and 46, Ranges 35 and 36.

Fourth. You also agreed to assist us in blocking these lands along the upper Miami Canal by selling or exchanging with us any sections which you might own in the said Townships 45 and 46 upon satisfactory terms, for example: The State owns sections 3 and 15 in Township 46, Range 35. These two sections immediately adjoin the Tatum and other sections in which Pennsylvania has an interest, and would prove to be very helpful to us. According to the report which our Mr. Barnes has, it would appear that the State has few sections in these upper lands. We would appreciate your sending us a description of the lands owned by the State in these townships, and in view of the premises we would desire either to buy these sections at the same prices which we paid for the 62,000 acres, or make exchange with you for sections of equal value, at our election. Of course we understand that this part of the agreement relating to the blocking of these upper sections by such purchase or exchange is rather vague, but we feel sure that both understand the purpose and in good faith will carry out the same.

Having learned that the foregoing arrangements would tend to your financial aid, we are sending the enclosed $50,000 cheque to you by Senator Terrell, with the understanding that it may be used at any time after the foregoing matters have been confirmed by letter from your Board to us.

With appreciation for the courtesies which you extended to us at our meeting and for all the help which you have been so ever ready to give us in our enterprise to the extent of your official right, and with many pleasant recollections of our meeting, I beg to remain,

Very respectfully yours,
(Signed) GEO. H. EARLE, JR.,
President.
After due consideration of the statements and acts as outlined in the foregoing letter of November 18, 1921, it is hereby declared that it is the sense of the Trustees that the said facts and conditions are as heretofore agreed on by this Board with the Pennsylvania Sugar Company, and the Counsel for this Board is hereby requested to advise Mr. Earle that the same are hereby approved, ratified and confirmed.

Upon motion the Trustees adjourned.

Hon. W. E. Kay, General Solicitor for the Atlantic Coast Line Railroad Company, appeared before the Trustees and made application to purchase certain lands on the Caloosahatchee Canal at Moore Haven, Florida, upon which the said railroad had laid tracks and built terminals, and stated that the said Railroad Company had filed with the Secretary of State maps, etc., making application for said right-of-way, terminals, etc., as required by law. After discussion the Trustees decided they would deed said land containing 70 acres, more or less, in Glades County, to the Atlantic Coast Line Railroad Company upon payment of $5,000.00 MrM. Kay agreed to make such payment, and the Special Counsel of the Trustees was authorized to prepare deed to be executed by said Trustees to said lands.

The Trustees met on this date to consider the sale of a certain submerged tract of land located in Biscayne Bay, Dade County, Florida, being in the Southeast Quarter of Section Four, Township 54 South, Range 42 East, containing 17.8 acres, more or less. The said lands having been advertised in the Miami Herald, a newspaper published in the County in which the said lands lie, as required by law, and affidavits filed with the Secretary of such publication. Several protests against the sale of said land were read, and after considering the same the Trustees were of the opinion that such protests have no valid rea-
son against the sale of said lands, and bids were opened. Brown and Company, bid $500.00 per acre for said land. After discussion it was decided, on account of an error in the advertisement of the land, to-wit: Stating that the land was in Range 43 instead of Range 42, it was ordered that said land be re-advertised, for sale February 8, 1922.

It was also ordered that a partly submerged tract of land in Indian River, known as Grant Island, lying in the West Half of the Southeast Quarter and East Half of Southwest Quarter, Section 27, and North Half of Northeast Quarter of Section 34, Township 29 South, Range 38 East, containing 21 acres, more or less, in Brevard County, be advertised for sale February 8th, 1922, as required by law.

Mr. E. E. Goodno having agreed to purchase unsurveyed fractional Section 25, except 7.65 acres, and unsurveyed Sections 26, 35 and 36 in Township 42 South, Range 29 East, containing 875.40 acres, at a sale held on December 20, 1920, and to pay $500.00 cash thereon. After said lands were surveyed, Entry No. 17002 dated August 17, 1921, was made to said E. E. Goodno, but as said purchaser failed to make the first payment, to-wit: $500.00, it was ordered by the Trustees that said Entry No. 17002 be and the same is hereby cancelled.

Mr. C. B. Gwynn, who had been instructed to make an examination of lands of the State on Kissimmee Island and report, submitted a written report on same, dated November 29, 1921. Said report was read and ordered filed. It was then agreed by the Trustees that they would sell these scattered tracts of land at $5.00 per acre, provided the purchaser would buy the entire holdings, including School and Trustee lands, and the Honorable Commissioner of Agriculture and Land Salesman was advised to so inform prospective purchasers.

The following letter from Hon. J. C. Luning, State Treasurer, was read:

"Jany. 3, 1922.

To the Trustees of the Internal Improvement Fund of the State of Florida.

Gentlemen:

During the middle of last month, upon a trip to Lake Okeechobee, I investigated conditions as to Section 9, Tp. 44 S., R. 36 E., and also as to sub-divisions
of Section 7, Tp. 43 S., R. 37 E.; also Sections 13, 23, 24, and 25 of Tp. 44 S., R. 36 E., and beg to report the following:

As to Section 9, Tp. 44 S., R. 36 E., I find that the water line of the Lake has receded more than one-fourth of a mile from the water line as indicated by the Map of the Chief Drainage Engineer; I also found this same condition to exist relative to Section 7, Tp. 43 S., R. 37 E., and Sections 13, 23, 24 and 25 of Tp. 44 S., R. 36. In fact I found some parties cultivating truck crops upon land opposite sub-divisions of Sec. 25, Tp. 44, R. 36, which present map shows to be water. I therefore recommend the following as to these respective parcels of land:

That all that portion of Section 9, Tp. 44 S., R. 36 E., south of a mark indicated by an X on the attached map of said section, be discontinued as lots reserved for building purposes and thrown into general acreage of the section to be sold at price placed upon land in that section, and the first tier of building lots from the Lake be priced at $225.00 per lot, and the second tier of lots priced at $200.00 per lot. There is about one and one-fourth acres in each of these lots.

That all of the sub-division lots between the red lines and Lake Okeechobee, as shown by the attached map, which are now reserved for building lot purposes, be placed upon the market for miscellaneous purchases, without any reservation, at the prices marked on said lots as indicated on said plat.

Very respectfully,

J. C. LUNING,
State Treasurer.

After discussion it was unanimously ordered that Lots 1, 2, 3, 4, 5, 6, 7, and 8 of Section 7, Township 43 South, Range 37 East;
Lots 1 and 2, Section 12;
Lots 1, 2, 3, 7, 8, 13, 14, 19, 20 and 21, Section 13;
W\(\frac{1}{2}\) of Lots 13 and 20;
Lots 21, 28, 29, and 30, Section 24;
Lots 2, 3, 4, 7, 8, 11, 12, and 15, Section 25;
Lot 1, Section 14;
Lots 1, 2, 3, 4, and 5, Section 23, all in Township 43 South, Range 36 East, be placed upon the market at $125.00 per acre; and
Lots 9, 10, and 11 of Section 7, Township 43 South, Range 37 East;
Lots 4, 5, 6, 9, 10, 11, 12 and W½ of Lot 22, Section 13;
Lots 4, 5, 12 and W½ Lots 27 and 31, Township 43 South, Range 36 East, be placed on the market at $100.00 per acre, and that the action of the Trustees, heretofore taken, reserving from sale certain lands along the shore of Lake Okeechobee, be and the same is hereby rescinded in as far as it affects the above lots; and the other lots as platted in said plat under date of December 1, 1916 in the above Sections be discontinued as reserved lots and be placed in the general acreage of the various sections for sale at a price placed upon said lands. And that all that portion of Section 9, Township 44 South, Range 36 East, except the N¼ of the N½, be discontinued as lots reserved and be thrown into the general acreage of the Section for sale at a price placed upon said land, and that the first tier of lots in the N¼ of the N½ of said Section 9 be sold at $225.00, and the second tier at $200.00, and the Chief Drainage Engineer be requested to plat said Section in accordance therewith and file said plat in the Office of the Clerk of the Court of Palm Beach County.

Upon motion, the Trustees rescinded order made by them reserving 26.10 acres of land owned by them in Lot 1, Section 31, Township 43 South, Range 36 East, for building purposes and passed an order to sell the land described above to H. O. Sebring, at a price offered for said land about three months ago, viz: $250.00 per acre. The Secretary was instructed to write Mr. Sebring, at Sebring, Florida, notifying him of this action.

It was also agreed that unsurveyed Triangle lying between the South boundary of Lot 15, Section 25, and the Hillsboro Canal, be sold at $150.00 per acre.

Upon motion the Trustees adjourned.

CARY A. HARDEE, Governor.
Chairman.

Attest:
J. STUART LEWIS,
Secretary.
Tallahassee, Florida, January 10, 1922.

The Trustees of the Internal Improvement Fund met on this date in the office of the Governor in the Capitol.

Present:
Ernest Amos, Comptroller.
J. C. Luning, Treasurer.
R. H. Buford, Attorney General.
W. A. McRae, Commissioner of Agriculture.

Mr. W. C. Kyle, and other Members of the Land Committee of the Fort Lauderdale Chamber of Commerce, appeared before the Trustees and requested them to extend the time of payment to be made by Mr. Jeffries on lands purchased December 28, 1920, a payment of $50,000.00 being due on December 28, 1921. After considering the condition of such request the Trustees agreed to extend the time for making the first $50,000.00 six months, at which time payment must be made and deed will be issued with mortgage and notes to cover the balance due.

The Secretary reported that he had a number of applications of former owners of lands in Dade County, whose lands had been sold for Everglades Drainage Taxes and title had vested in the Trustees and these parties were desirous of purchasing these tracts. Upon motion it was ordered that these lands be advertised in the Miami Herald, a newspaper published in Dade County, for sale February 16, 1922, as required by law.

The Secretary stated that a certain submerged tract of land in Biscayne Bay, Dade County, as advertised for sale on Thursday, January 12, 1922, was erroneously described in said advertisement. It was ordered that said sale be annulled, and the said submerged land be correctly described and re-advertised in a newspaper in Dade County, as required by law.

Upon motion the Trustees adjourned.

ERNEST AMOS, Comptroller,
Acting Chairman.

Mr. G. E. McCaskill of Miami, and Mr. McCreary, representing the J. B. McCreary Engineering Corporation of Atlanta, appeared before the Trustees relative to constructing a canal in connection with the road now being built in Dade County through Ranges 35 and 36 East, Township 54 South, and stated that at the time the Trustees offered to subscribe certain lands to aid in the cost of constructing said Canal, to-wit: March 9, 1921, they could not and did not accept such proposition, as they were of the opinion that said canal would require such additional expenditure that the said Company would lose money in such road building, and they would renew their request for a donation of lands, provided the size of the canal be reduced in dimensions from their original offer. After dis-
discussion of the matter, the same was referred to the Chief Drainage Engineer for his opinion as to the advantages to be derived toward drainage by the construction of such canal, and upon such information they would further consider the matter.

Upon motion the Trustees adjourned.

The proposition of the J. B. McCreary Engineering Corporation, to dig a canal in connection with the Tamiami Trail Road, now being constructed in Dade County through Township 54 South, Ranges 35 and 36 East, was discussed, and after hearing the statement of the Chief Drainage Engineer on the subject, it was decided that the Trustees would not subscribe any lands toward said project.

The following Resolution was introduced by Hon. W. A. McRae, and upon motion was adopted:

RESOLUTION

BE IT RESOLVED, That the Treasurer is hereby requested to return said amount of $376.00 to the said O. M. Revell.

The Trustees met to consider the sale of a certain submerged tract of land, offered for sale on this date, in Biscayne Bay, Dade County, Florida. The Secretary stated that the lands had been advertised once a week for five consecutive weeks in the Miami Herald, a newspaper published in Dade County, Florida, and the Star Advocate, a newspaper published in Brevard County, Florida, and affidavits of such publication were presented and ordered filed. Bids were opened for Grant Island, lying in the West Half of the Southeast Quarter and East Half of Southwest Quarter of Section 27, and North Half of Northwest Quarter of Section 34, Township 29 South, Range 38 East, containing 21 acres, more or less. The bid of Fred R. Brown of Melbourne, Florida, of $500.00 for the entire tract, being the best bid received, and no objections having been filed against the sale of said land, it was ordered that said bid be accepted.
Bids were opened for the sale of the submerged lands in Biscayne Bay, between the Concrete Viaduct and the City Channel, being in the Southeast Quarter of Section 4, Township 54 South, Range 42 East, containing 17.52 acres, more or less. Brown Company bid $500.00 per acre for the said land. A written protest from Carl Fisher of Miami was read and after due consideration of same, the Trustees were of the opinion that said objection did not present a valid or legal objection, and upon motion, the bid of Brown Company was accepted for said lands, and the Hon. Commissioner of Agriculture was requested to issue deeds for the aforesaid tracts of land.

M. Hudson being present, presented petitions from various land owners along Biscayne Bay, objecting to the sale of Bay Bottom lands in Biscayne Bay, stating the reasons of his clients' objections, the Trustees considered the various objections and were of the opinion that the said objections did not constitute a valid or legal objection, and bids were ordered opened.

L. E. Kloeber of Miami bid $100.00 per acre for the Tract, and Mr. Buford moved that the bid of Mr. Kloeber be accepted. Upon motion the same was unanimously adopted by all present.

Hon. John C. Cooper, Jr., appeared before the Trustees and presented a claim of Wilson Cypress Company of Palatka, Florida, for certain lands on the St. Johns River, covered by a certificate issued by L. B. Wombell to John A. Henderson, June 1st, 1889, and after discussion of same, on Motion of Mr. Buford, this claim was referred to Counsel for investigation and to make recommendation to the Trustees.

Mr. Fred T. Myers and J. A. Gates appeared before the Trustees on behalf of the South Florida Farms Company, with reference to certain lands in Moore Haven, lying below the Meander line of the Lake. After a full discussion of the matter, the Trustees requested Messrs. Myers and Gates to submit to them an offer for all of the said lands in the town of Moore Haven, lying West of the Three-Mile Canal, with a proposition to release all or any claim they might have to any other such lands in the town of Moore Haven, which Messrs. Myers and Gates agreed to do, and the Trustees further agreed to go over the whole proposition on the ground when they visited Moore Haven, the latter part of the month.

By appointment with the Tatum Land Company of Miami, Mr. S. M. Tatum, representing the said Company,
appeared before the Trustees with reference to the matter of the contract for construction of a railroad from Miami, Florida, in a Northwesterly direction along the Miami Canal to Lake Okeechobee, and thence Westerly to connect with some railroad in South Florida, which contract, among other things, provided, that in the event the said railroad was not constructed as per terms thereof, the said Tatum Land Company would pay to the Trustees of the Internal Improvement Fund the sum of $190,000.00 as liquidated damages, which amount was evidenced by the Promissory Note of the said Tatum Land Company, executed September 24th, 1917, and due December 31st, 1924, without interest.

After a full discussion of the situation the Trustees of the Internal Improvement Fund agreed to credit the said note with the sum of $95,000.00 and cancel the said contract, which matter Mr. Tatum agreed to submit to his Company, and the Trustees in connection therewith adopted the following resolution:

RESOLUTION

WHEREAS, The Trustees of the Internal Improvement Fund, on September 24th, A. D. 1917, entered into a contract with the Tatum Land Company for the construction of a railroad from the city of Miami in a Northwesterly direction along or near the Miami Canal to Lake Okeechobee and thence Westerly to connect with some other railroad in South Florida; and

WHEREAS, The said Contract, among other things, provided that the said railroad should be commenced and 5 miles thereof completed during the year 1918, and a certain portion thereof during each year up to and including 1924, at which time the said railroad was to be completed; and

WHEREAS, The said contract further provided that the said Tatum Land Company would pay $500.00 per mile for the right-of-way of the said railroad, and would begin the payment on the said right-of-way in 1918, and would continue with specified amounts therein up to and including the year 1924, when the said Right-of-Way should be completely paid for; and

WHEREAS, The said Contract provided further, that in the event of the failure of the Tatum Land Company to construct the said railroad, as above outlined, they would
pay to the Trustees of the Internal Improvement Fund the sum of $190,000.00 as liquidated damages, which amount was evidenced by their Promissory Note dated September 24th, 1917, due December 31st, 1924, without interest; and

WHEREAS, The construction of the said railroad was specifically made a part of the consideration for the sale of certain lands by the Trustees of the Internal Improvement Fund to the said Tatum Land Company, as of the date of the execution of the said contract; and

WHEREAS, It appears that the Tatum Land Company has not been able to construct the said railroad, or any part thereof, nor has it paid any amounts on its Right-of-Way Notes, and it would now be impossible for them to construct the said railroad, under the terms and provisions of the said contract; and

WHEREAS, The Trustees of the Internal Improvement Fund, consider the matter of transportation and the construction of this, or a similar, line of railroad, the most urgent need and demand of the Everglades Drainage District at this time; and

WHEREAS, It seems that there is no probability of the said railroad, or any part thereof, being constructed by the said Tatum Land Company; now, therefore,

BE IT RESOLVED, By the Trustees of the Internal Improvement Fund, that the said Contract for the construction of the said railroad, be and the same is hereby terminated and rescinded, and the Trustees of the Internal Improvement Fund, on due consideration of the premises, agree to credit the said note of $190,000.00, as liquidated damages, due December 31, 1924, under the terms thereof, with $95,000.00.

Special Counsel was authorized to write the Tatum Land Company fully and request that they adopt a resolution, accepting the terms as outlined in the foregoing Resolution.

Upon motion the Trustees adjourned.

CARY A. HARDEE, Governor, Chairman.

Attest:
J. STUART LEWIS.
Secretary.

Tallahassee, Florida, May 9, 1922.

The Trustees of the Internal Improvement Fund met on this date in the office of the Governor in the Capitol.

Present:
Cary A. Hardee, Governor.
J. C. Luning, Treasurer.
Rivers Buford, Attorney General.
W. A. McRae, Commissioner of Agriculture.

Mr. F. M. Hudson appeared before the Trustees on behalf of his clients, Messrs. Deering and Matheson, with reference to certain lands on Key Biscayne; said lands being of the character known as swamp and overflowed lands in Dade County, Florida.

With reference to said lands it appears as follows:
1. That to certain of the lands in question, the State of Florida had received patent from the Federal Government, and that the State had sold and conveyed such lands to parties through whom title had descended to Messrs. Deering and Matheson. Subsequently patent to the State covering the above lands was cancelled by the Federal Government by reason of said lands having been previously set aside by Congress as a military or naval reserve, and not subject to patent.
2. That a second patent on said Key Biscayne had been conveyed by the State to parties from whom title had come to Messrs. Deering and Matheson, said conveyance had been made prior to the receiving by the State of patent from the Federal Government, but on the assumption that such patent would issue. Patent was later denied.
3. That a third tract of land on Key Biscayne had not until recently become vested in the State, and remains unsold at the present time.

Through Special Act of Congress, recently passed, title to lands on Key Biscayne, as described under paragraph 1, have been confirmed to Messrs. Deering and Matheson. With reference to lands described under paragraphs 2 and 3, title was confirmed to the State.

With reference to the above, Mr. Hudson made the following request: That the Trustees make quit claim deed to his clients for lands described under paragraph 2, thus confirming title which had previously passed from the State; that the Trustees sell lands described under paragraph 3 to his clients and that in making such sale, consideration be given to the part undertaken by his clients in the interest of the State relating to said lands.

Upon considering the foregoing, the Trustees directed:

1. That quit claim deed be drawn in favor of Messrs. Deering and Matheson for the purpose of perfecting title to the said lands, more particularly described as follows:

"All of Fractional Sections 6, 8 and 9 in Township 55 South, Range 42 East, not in the May Ann Davis Grant, and containing 254.71 acres, more or less, Dade County, Florida."

2. That the following described lands on Key Biscayne be advertised for sale in the usual manner and that an equitable portion of the expense to Messrs. Deering and Matheson in connection with said lands be credited them in the event of sale to them, or to other parties:

"Fractional SW\(\frac{1}{4}\) of Section 21; Fractional NW\(\frac{1}{4}\) of NW\(\frac{1}{4}\) of Section 28, and all of Fractional Sections 29 and 30 in Township 54 South, Range 42 East, Containing 332.50 acres, more or less, according to Plat of J. E. Hilgard, U. S. Coast Survey Office, December, 1870; said land being located in Dade County, Florida."

The Chief Drainage Engineer presented a letter from John C. Sherman, Miami, Florida, of The Brown Company, requesting that an extension of time of ninety days, for withdrawal from sale of an island or shallow bank in Biscayne Bay, be made, in view of the fact that the decision of the War Department had not yet been rendered with reference to the improvement proposed by the above Company covering the tract heretofore purchased by The Brown Company from the Trustees.
The Trustees authorized an extension of the time covering withdrawal of sale until August 17th, 1922, and directed the Chief Drainage Engineer to advise The Brown Company accordingly.

Special Counsel Glenn Terrell presented a letter from Frank R. Craig of Miami, Florida, requesting the return of money which accompanied his bid for tract of land in Broward County. After consideration the Trustees decided to grant his request and return the money, less cost of advertising; advertisement of said land already having been published, and the acting secretary was instructed to so advise Mr. Craig and forward check as above.

On motion duly seconded and carried, the Minutes of the Trustees of April 25th, 1922, were, and are, hereby amended to include the appointment of Richard W. Ervin as Acting Secretary of this Board during the absence of the Secretary, who is on his vacation; such appointment to date from May 9th, 1922, and to continue until the return of the Secretary.

The following bill was approved and ordered paid:

Frank R. Craig, to reimbursement for bid on Trustees' land for sale, Non-payment Drainage Taxes, less cost of advertising.......................$ 7.36

Several applications were presented to the Trustees for certain islands, and they ordered—

That the island in Pelican River, Section 19, Township 42 South, Range 37 East, be sold to settlers thereon at $100.00 per acre, allowing each settler to purchase his improvements and adjoining lands, amounting to approximately 20 acres each, giving them thirty days' time in which to purchase same, details of purchase to be decided upon, after a plat of the Survey has been approved by Hon. F. C. Elliot, Chief Drainage Engineer, giving description of the lands;
That the 33.32 acres near Sand Point, in Township 43 South, Range 34 East, be sold to John J. O'Brien at $25.00 per acre on terms of one-fourth cash, balance in one, two and three years with 8 per cent interest per annum on deferred payments, taking notes, secured by mortgage on said land. Mr. Elliot to furnish description and plat of lands for deed;

That the unsurveyed island in Section 36, Township 49 South, Range 42 East, and Section 1, Township 50 South, Range 42 East, be sold to Captain T. Hall for $50.00, and $12.00 to pay cost of advertising, provided no higher bid is received. Mr. Elliot to furnish description for deed;

That a price of $1,000.00 be put on the unsurveyed island of 89 acres in Section 27, Township 43 South, Range 43 East, to be advertised should parties desiring same remit $50.00, as guarantee that they will pay said amount, and if a higher bid is received the said amount to be returned. Mr. Elliot to prepare description and plat of same;

That the two islands in the NE1/4 of Section 8, Township 15 South, Range 33 East, be advertised for sale; provided Harry A. Horn will agree to pay $500.00 for each island and send certified check of $50.00, as guarantee that he will bid that amount on date of sale. Mr. Elliot to furnish description of plat of said islands;

That upon application of O. S. Miller, who claimed to have made valuable improvements thereon, Grassy Island in Section 20, and two other adjacent islands in Section 29, Township 42 South, Range 34 East, be advertised and sold to the highest bidder; provided Mr. Miller will agree to bid not less than $150.00 per acre therefore, depositing with the Commissioner of Agriculture a certified check for $50.00 as guarantee that he will bid said amount per acre.

Special Counsel Glenn Terrell presented the matter of application of Tatum Land Company of Miami, Florida, for a credit of the entire face of their Land Note for $190,000.00 due December 31, 1924, and on which this Board at a previous meeting agreed to credit the sum of $95,000.00. Counsel was requested to advise the Tatum Land Company, that in view of the whole circumstances affecting this transaction, the Trustees feel that $95,000 00 as heretofore credited on the said Note, which credit Mr. S. M. Tatum, representing the Tatum Land Company, expressed the view that the same would be satisfactory to his Company, would be all that this Board could allow on
the said Note; and Counsel was further requested to advise the Tatum Land Company that if such credit of $95,000.00 was not accepted on or before June 15th, 1922, and Resolution of Tatum Land Company adopted, expressing such acceptance, that this Board would hold the Tatum Land Company for the full amount of the said Note.

Upon motion, duly adopted, the Trustees adjourned.

Counsel for the Trustees read a letter from Messrs. Kay, Adams and Ragland, representing Mr. Clarence M. Busch, advising that with reference to the sale of certain lands at Moore Haven, Mr. Busch had disposed of certain sections and could now make quit-claim only to the lands lying in front of Sections 10, 15, 21, 27 and 28 of Township 41 South, Range 32 East, and the West Half of Section 12 and in front of the Atlantic Coast Line Railroad property in Section 11, Township 42 South, Range 32 East, the balance of said lands mentioned having been disposed of by the said Busch, but that he, the said Busch, was willing to quit-claim his interest in the foregoing described lands, and pay the Trustees of the Internal Improvement Fund $5,000.00 for the acreage in question and as heretofore considered.
Mr. Busch further requested, through Messrs. Kay, Adams and Ragland, that in the event the foregoing proposition was not accepted by the Board, would it consider giving him a quit-claim to Lots 8, 9 and 10 in Block 138; Lots 1, 2, and 3 in Block 138; Lot 16 in Block 141, and Lots 7, 8, 15 and 16 in Block 142, the town of Moore Haven, Florida.

Counsel for the Board was requested to advise Messrs. Kay, Adams and Ragland that the Trustees would accept quit-claim for the lands as enumerated, but would not make further reduction in the price of $8,500.00 as heretofore made, for the lands as referred to herein, and that in the event this proposition was not accepted, the Trustees would enter into negotiations for the sale of the lots in Moore Haven as above.

The Chief Drainage Engineer transmitted a letter with reference to Florida Coast Line Canal, stating that under the provisions of the River and Harbor Act of June 5, 1920, an investigation and report covering the said Canal had been ordered by the Congress, and that pursuant to the same, a hearing had been held in West Palm Beach on the 17th instant by the District Engineering Officer of the War Department for collecting data and information with reference to said Canal and for hearing arguments for or against acquiring of the same by the United States, looking to the improvement and maintenance in the interest of navigation.

After a discussion by the Trustees of the subject matter of the report of the Chief Drainage Engineer, as set forth by letter of May 25th, 1922, the Trustees were of the opinion that they should favor the transfer of the Florida Coast Line Canal from the present holding company to the United States, for the purpose of improving and maintaining the said canal in the interest of navigation; and that by reason of the interest which the State of Florida has in the said water-way, it would be appropriate that the Trustees adopt suitable resolution, setting forth their position in the premises, and transmit the same to the Secretary of War.

Special Counsel for the Trustees was instructed to prepare such Resolution to be presented at their next meeting.
Upon motion, duly adopted, the Trustees adjourned.

Tallahassee, Florida, June 13, 1922.

The Trustees of the Internal Improvement Fund met on this date in the office of the Governor in the Capitol.

Present:
Cary A. Hardee, Governor.
Ernest Amos, Comptroller.
J. C. Luning, Treasurer.

Messrs. Bryant and Greenwood, representing Florida Sugar and Food Products Company, appeared before the Trustees with a proposition to exchange certain lands which they owned or controlled, for certain other lands owned by the Trustees of the Internal Improvement Fund, for the purpose of blocking up the ownership of the same. The proposition further contemplated the purchase of certain additional lands by the above Company from the Trustees.

After discussing the matter the Trustees recessed for a decision at an adjourned meeting on the 14th instant.

Upon motion, duly adopted, the Trustees recessed.

CARY A. HARDEE,

Pursuant to the subject discussed by the Trustees of the Internal Improvement Fund and Messrs. Bryant and
Greenwood, on the 13th instant, agreement was reached as follows:

That the following described lands owned or controlled by the Florida Sugar & Food Products Company, to-wit:

Sections 2, 4, 8, 10, 22, and N1/2 of Section 6, Township 42 South, Range 38 East,

are to be exchanged for the following described lands owned by the Trustees, to-wit:

Sections 1, 13, 23, 25, 35, and N1/2 of Section 11, Township 42 South, Range 38 East;

And it was further agreed that the above Company would purchase from the Trustees, at the rate of $20.00 per acre, the following described lands:

Sections 5, 6, 7, 8, 9, 16, 17, 18, 19, 20, 21, 28, 29, 30, 31, 32, and 33, Township 41 South, Range 38 East;

And that in view of the great value of the lands received in exchange by the Trustees for those transferred in exchange to the Company, it was agreed that the Trustees would credit said Company, against the total purchase price of the above described lands, $5.00 per acre for 4½ Sections of those exchanged. Payment on lands purchased by the Company are to be as follows:

The Company agrees to pay all Drainage Taxes on said lands until the final payment shall have been made.

Prior to full payment for all lands as above described, the Trustees agree to release to said Company, upon their demand, lands at the rate of $25.00 per acre in quantities of One Section or more.

The Trustees agree to advertise the above lands for sale and the Florida Sugar & Food Products Company agrees to bid for the same not less than $20.00 per acre.

Mr. Frank O. Spain, Jr., of Moore Haven, appeared before the Trustees of the Internal Improvement Fund on behalf of his client, Mr. Hixon, with reference to an island known as "GRASSY ISLAND" in Lake Okeechobee, situated in Section 20, Township 42 South, Range 34 East.
The Trustees took action with reference to the above island under date of April 25th, 1922, in which it was directed that Mr. Spain be advised to the effect that the lands comprising the said island, to the extent of 33 acres, would be advertised for sale, provided, Mr. Hixon would guarantee to bid not less than $150.00 per acre for the same.

Mr. Spain requested the Trustees to advertise Grassy Island, together with an island adjacent to, and on the North end of, Grassy Island so that bids could be submitted for the purchase of all lands above the contour of 16 feet. The Trustees advised Mr. Spain that they would advertise the lands above, provided his client would agree to bid not less than $4,000.00 for land included above the contour of said islands at 16 feet. Mr. Spain advised the Trustees that he would notify them of the decision of his client within one week, with reference to such price and the advertisement of said lands.

As per Minute of May 14th, Counsel for the East Coast Railway Company and Counsel for the Trustees submitted the following Memorandum of Agreement, which was duly executed on the part of the Trustees of the Internal Improvement Fund and the Florida East Coast Railway Company:

MEMORANDUM OF AGREEMENT.

MEMORANDUM OF AGREEMENT made and entered into this 14th day of June A. D. 1922, by and between Cary A. Hardee, Governor, Ernest Amos, Comptroller, J. C. Luning, Treasurer, Rivers Buford, Attorney General, and W. A. McRae, Commissioner of Agriculture, of and composing the Trustees of the Internal Improvement Fund of the State of Florida, as such officials, their successors and their their successors in office, as parties of the first part, hereinafter referred to as the "TRUSTEES," and the Florida East Coast Railway Company, a corporation organized and existing under the laws of the State of Florida, for itself, its successors and assigns, as the party of the second part, hereinafter referred to as the "COMPANY."

WITNESSETH:

That in consideration of the sum of Ten Dollars ($10.00) paid by the party of the second part, the receipt of which is hereby acknowledged, and in further consideration of
the mutual covenants and agreements hereinafter set forth, the said parties hereby covenant and agree as follows:

ONE. The Trustees agree to and hereby grant and convey unto the Company, its successors and assigns, in fee simple a right-of-way through the Counties of Okeechobee and Palm Beach, in the State of Florida, for a standard gauge line of railroad extending from the town of Okeechobee, Florida, in a southerly direction on or near the easterly shore of Lake Okeechobee to a point at or near the intersection of the North New River Canal with said Lake Okeechobee, being at the southeastern extremity of said Lake Okeechobee, and from said point last named a choice of two alternative routes subject to the option of the Company is granted as follows:

(a) From said point at or near the intersection of said North New River Canal with said Lake Okeechobee, thence through Palm Beach and Broward counties, Florida, on or near the banks of said North New River Canal to a point at or near Fort Lauderdale, Florida; or

(b) From said point at or near the intersection of said North New River Canal with said Lake Okeechobee, thence through Palm Beach, Broward and Dade counties, Florida, in a southerly direction to the Miami Canal, and thence on or near the banks of the Miami Canal to a point at or near Miami, Florida.

If route (a) is selected by the Company, it is hereby granted, at its option, an additional right-of-way from a point on said North New River Canal to be designated by it to a point on the Miami Canal to be designated by it, and thence on or near the banks of the Miami Canal to a point at or near the city of Miami, Florida.

Said rights-of-way as and where finally selected by the Company shall be one hundred (100) feet in width for main line railroad construction and two hundred (200) feet in width and two thousand (2,000) feet in length for sidings, turnouts, station houses and other necessary and incidental construction and erectitons; also to include additional ground for section house layouts two hundred (200) feet in width by four hundred (400) feet in length outside of main right-of-way strip, such section house layouts to be located at approximately every eight (8) or ten (10) miles along said line of railroad, the location of such section house layouts to be subject to the approval of the Trustees; and said rights-of-way as so defined shall extend
on, over and across any lands and easements now or here-
after owned, possessed or controlled by the Trustees cov-
ered by or along the routes above described and set forth.

The right and privilege is also given and granted to re-
move and use any earth, stone or material in the spoil
banks on or near the banks of any State canal covered by
said right-of-way or closely adjacent thereto, or any Statet
canal to be crossed by said railroad for a distance of fifteen
(15) miles on either side of said crossing along the canal
banks, for the purpose of the construction and mainte-
nance of the proposed line of railroad, and its erections,
constructions, yards, grounds, and other necessary and in-
cidental appurtenances; and the Company may remove
and transport said material to such place or places as
may be desired wherever there may be a deficiency of ma-
terial, provided that the banks of the canals shall not be
injured or weakened by the removal of any material as
in the judgment of the Chief Drainage Engineer is useful
for the protection of the said canal and its banks.

Provided, further, that where the road-bed follows the
bank of a canal the center line of said main track road
bed shall not be nearer the edge of the canal than thirty-
five (35) feet; passing a station or any other tracks
that may be necessary for the operation of the railroad
shall not be nearer than thirty-five feet from the center
line of any such track to the edge of the canal; except in
such special cases as may be necessary for approaching or
crossing the canal, or for constructing a spur or siding or
warehouses at a landing or slip, and that such special cases
shall be subject to the written approval of the Chief Drain-
age Engineer.

It is further provided that in making use of or appro-
priating the spoil bank of a canal for a roadbed, or for
other purposes, the same shall be done by removing the ma-
terial from the spoil bank from the side thereof farthest
from the canal, and any material removed from the spoil
bank shall be done in such manner that no spoil bank shall
be placed nearer the canal than its original position in the
spoil bank, and that the berm shall not be lessened or en-
croached upon, and if borrow pits or ditches are excavated
for the purpose of providing material for road construction
or road drainage, such borrow pits or ditches shall be dug
parallel with the roadbed on the side away from the canal
and in such manner as to form as nearly as practicable a continuous connecting ditch.

Provided, further, that the Trustees specifically reserve a strip of land twenty (20) feet wide contiguous to the canal or canals between the edges thereof and the right-of-way herein granted, and the rights, rights-of-way and easements hereby granted and intended to be granted shall be exclusive, that is to say, the Trustees will not during the valid continuance of this contract, or of any right, estate or easement hereunder, grant or convey to any person or persons, firm or corporation, any right, right-of-way or easement to construct a line of railroad on or along the eastern shore of Lake Okeechobee, or the banks of the Miami or North New River Canal. And further that the Trustees will not grant to any person, firm or corporation the use of any earth, stone or other material situated in or upon the spoil banks of said canals which will be needed by or useful to the Company, its successors and assigns, for the construction of its proposed line of railroad and its erections, constructions, yards, grounds and other necessary and incidental appurtenances, until after the completion of said line of railroad and its said works or the lawful termination of this contract; and after the completion of said line of railroad and its works, said Trustees shall have the right to grant the use of rock, earth, stone or other such material to other persons, firms or corporations, except that a sufficient quantity of said material to meet the maintenance needs of said railroad and its erections, constructions, yards, grounds, and other necessary and incidental appurtenances shall be reserved and left for that purpose. It is specifically understood and agreed that the Trustees of the Internal Improvement Fund or the Board of Commissioners of the Everglades Drainage District shall have and reserve the right to use at all times any or all such rock, earth and other material in or upon the spoil banks of the canals as they may require for the construction of any of their works now being or hereafter to be constructed.

And further that the rights, rights-of-way, easements and estate hereby granted and intended to be granted by the Trustees to the Company, its successors and assigns, shall be held, exercised and enjoyed in perpetuity.

TWO. The Company covenants and agrees to immediately place a survey corps in the field and to definitely
determine the location of said railroad within the limits of the route or routes herein specified at the earliest practicable time, and thereafter, as soon as the survey is completed, to make application to the Interstate Commerce Commission for a certificate of public convenience and necessity, as required by law, authorizing the construction of said railroad. If said certificate is not granted by the Interstate Commerce Commission, this agreement is automatically cancelled and terminated as of the date of the refusal to grant such certificate.

THREE. As soon as the Company completes survey of the proposed extension of its railroad from Okeechobee and the route of said extended line is definitely located and certificate of public convenience and necessity is granted by the Interstate Commerce Commission, authorizing construction of said extended line, the Trustees shall be furnished by the Company with a plat showing the route of said extended line as definitely located and with proof of the granting by the Interstate Commerce Commission of authority to construct said extended line, and the Trustees will thereupon make, execute and deliver to the Company a good and sufficient deed in fee simple granting and conveying the right-of-way for said extended line in accordance with this agreement and subject to the conditions and reservations herein contained and set forth.

Provided, that when the Trustees have made, executed and delivered to the Company their deed covering the right-of-way for said railroad as located, then the provisions of paragraph one (1) that the grant of the right-of-way of the Company shall be exclusive, shall from the date of the delivery of such deed be limited to the eastern shore of Lake Okeechobee, to the banks of the canal on which said railroad is located and to the remainder of the route as covered by said deed.

FOUR. The time allowed for commencement, building and completion of said railroad is as follows: For the commencement of construction upon said railroad at Okeechobee, not later than January 1st, 1923; for the building and completion of said railroad to a point at or near Canal Point, a distance of approximately thirty-three (33) miles, July 1st, 1924; for the building and completion of said railroad from a point at or near Canal Point to a point at or near the intersection of the North New River Canal and Lake Okeechobee, a distance of approximately forty-six
(46) miles, January 1st, 1925; for the building and completion of said railroad to a southern terminus at or near Miami, or at or near Fort Lauderdale, at the rate of twenty (20) miles per year from January first, 1925; if a greater number of miles is completed in any one year than stipulated herein, such excess mileage for any one year shall be credited on the stipulated mileage for the following and succeeding years. If for any reason beyond the control of the Company a certificate is not granted by the Interstate Commerce Commission authorizing construction of said railroad until after January first, 1923, the time allowed for commencement of said railroad shall not begin to run until sixty (60) days from the date such certificate is actually granted, and the time allowed for completion of said railroad and the several sections thereof, as set forth in this paragraph, shall be extended for a like period.

FIVE. Any time lost in the construction of said railroad, resulting from or due to the act of God or the public enemy, restraints of public authorities, floods, storms, excessive rainfall or other agencies of nature, strikes, congestion, embargoes, quarantine, epidemics, or any other occurrence or causes beyond the control of the Company shall be deducted from the time allowed for the building of said railroad by the Company, and that portion during the construction of which such interruption or interruptions occur, and any and all time so lost shall be deducted not only for the section of railroad being constructed and the yearly period when the time is actually lost, but shall be added to the time allowed for building the portion of such railroad during the construction of which such interruption of interruptions occur, and to the time allowed per year for building the road to its terminus, so that the final date for the completion of said railroad shall be extended for a period equal to the total sum of the time lost by the Company from such causes.

SIX. In event the Company selects the route from the point at or near the intersection of said North New River Canal with said Lake Okeechobee through Palm Beach, Broward and Dade counties, Florida, in a southerly direction to the Miami Canal and thence on the banks of the Miami Canal to a point at or near Miami, Florida, designated as (b) in paragraph one (1) it is agreed that the construction of said railroad will be dependent on the completion of said Miami Canal as now
being widened and deepened by the Trustees and the necessary use of the material from the spoil bank resulting from such widening and deepening, for a railroad; and if the Company is delayed in the building of said railroad along the bank of the Miami Canal by reason of the non-completion or delay in construction of said Miami Canal, then, and in that event, the time lost from such cause shall be deducted from the time allowed for the building of said railroad by said Company and shall not only be deducted from the yearly period when the time is actually lost, but shall be added to the time allowed per year for building the road to its terminus, so that the final date for the completion of said railroad shall be extended by a period equal to the sum total of the time lost by the Company from such causes.

SEVEN. The Company agrees to construct at each point where said railroad crosses a canal having dimensions of not less than ten (10) feet depth of cut and forty (40) feet width of bottom a steel bridge of some practicable draw type; that the net clearance between abutments shall not be less than fifty (50) feet; and that the overhead clearance at the lowest member of the bridge or bridges shall not be less than four (4) feet above normal ground surface, when the span is closed for railway operation; and that the vertical clearance when the span is open for the requirements of navigation shall not be less than forty (40) feet above the water level of the canal at the site of the bridge.

EIGHT. The Company further agrees that all drawbridges constructed or used over or across any such canal or canals shall be constructed and maintained in accordance with plans approved by the Chief Drainage Engineer for the Trustees, and should other canals be constructed by the Trustees which would pass across or under the said railroad at any time, the Company will provide suitable bridges or culverts at such crossings without cost to the Trustees, and that such draw-bridges shall be operated in accordance with the pilot rules of the United States relating to drawbridges across navigable streams.

NINE. The Company further agrees that in case of accident or wreck of any of its trains, rolling stock or other railroad property along any canal it will promptly remove the same so that navigation and drainage in such canals
shall not be impeded or obstructed longer than is reasonably necessary to remove such obstruction.

TEN. The Trustees agree where said right-of-way passes through lands belonging to others than the Trustees, that they will assist and aid the Company as far as possible in securing right-of-way through such lands.

ELEVEN. The Trustees hereby warrant and guarantee the Company that they have the right to grant and convey the right-of-way on the Miami Canal designated (b) in paragraph one (1), and in the event the Company selects said right-of-way they will defend the same against all persons whomsoever. Any and all delays suffered by the Company in building said railroad or any part thereof as a result of litigation as to the right of the Trustees to grant said right-of-way to the Company from Okeechobee to the southern terminus, or any part thereof, or as to the title of the Trustees thereto, and including time consumed by any and all necessary condemnation proceedings, shall not be computed as at part of the time allowed for the building of said railroad, but shall be added to the time allowed for the final completion thereof.

TWELVE. It is further mutually covenanted and agreed that unless the Company performs the covenants and agreements and complies with the conditions herein contained, then and in that event it shall forfeit all right, title and claim to the right-of-way and privileges herein granted and such right-of-way and privileges shall revert and return to the Trustees who shall thereby become re-invested with the title thereto, provided, that if the Company shall have built and completed any portion of said railroad on said right-of-way before breach of any of said covenants or agreements or failure to comply with any of the conditions herein contained, then only that portion of the right-of-way on which the Company has not built and completed a railroad shall revert and return to the Trustees.

Provided, further, that the Trustees may in writing waive such or any forfeiture arising or occurring under this contract, or extend by writing the time in which any of the acts or agreements of the Company stipulated herein may be done or performed, which waiver or extension shall have the effect of restoring the rights of the Company by relieving it of any penalty or forfeiture incurred, but only
in respect to the matter specifically waived in writing at the date of such waiver or extension.

The Acting Secretary reported that he had a number of applications to purchase certain lands in Broward and Dade Counties, which had been sold for Everglades Drainage District taxes and title had vested in the Trustees. Mr. Luning offered the following Resolution:

RESOLUTION.

RESOLVED, That in future when applications are made to purchase lands that have been sold for taxes and the Trustees have acquired title, that the Secretary ascertain whether or not the applicant was the owner at the time title vested in the Trustees; if so, notify the applicant of the amount necessary to pay all taxes and costs, and if check to cover is sent, lands will be advertised and if no one makes a higher bid, will be sold to applicant. In case where applicants are not owners, the Secretary to report such applications to the Trustees with all facts connected therewith.

Which Resolution was unanimously adopted.

The following communication was read and ordered spread on the Minutes and then referred to Special Counsel Terrell for attention:
Jacksonville, Florida, August 21, 1922.

Tallahassee, Florida.

RE-UNSURVEYED LANDS IN TP. 17 S., R. 29 E.

Gentlemen:
You will recall that on March 17th, 1922, a member of this firm appeared before the Trustees and requested that a resolution be adopted by the Trustees that certain lands in this Township be conveyed by the Trustees to Wilson Cypress Company as the assignee of John A. Henderson. These lands are described in a certificate from the Commissioner of Agriculture to Henry S. Wilson, dated June 1, 1889, as follows:

"All that part of the unsurveyed portion of Township 17 South, of Range 29 East, bounded on the east by the St. Johns River and Huntouns Island, on the South by the extension eastward of the Township line between Townships 17 and 18 South of Range 29 East to Huntouns Island as surveyed by C. C. Tracey, U. S. Dep. Surveyor in 1846. On the West by the meanderings of the traverse lines as shown on the Government Maps or surveys of the Eastern sides of Section 25, 26 and 35 (west of river) and on the North by extension eastward to the St. Johns River of the section line between Sections 24 and 25 and containing 1553 acres by estimation as selections for the State of Florida made under the Swamp Lands Act of Congress of September 28, 1850."

The Minutes of the Trustees of the I. I. Fund on page 278, Volume 5, show that on December 23, 1904, Mr. Henry S. Wilson appeared before the Board of Trustees of the I. I. Fund and presented the Certificate of the Commissioner of Agriculture dated June 1, 1889, and assignment of same date from John A. Henderson to Henry S. Wilson, covering these lands and requesting action by the Board, and that a resolution was adopted at that meeting recognizing the rights of Henry S. Wilson in said lands and giving him the privilege of purchasing same when they should be patented by the
United States to the State of Florida. At the meeting of March 17, 1922, above mentioned, this matter was referred by your Board to your Special Counsel, Hon. Glenn Terrell, for investigation and report. On May 1, 1922, he advised that in his judgment the showing made by Wilson Cypress Company would not justify the Trustees of the I. I. Fund in recognizing the Certificate as mentioned in the correspondence, or in conveying or granting any rights thereunder.

We cannot agree with this decision of your counsel and therefore on behalf of Wilson Cypress Company, we are hereby giving your Board notice that Wilson Cypress Company is entitled to a conveyance of this land from you as soon as it is patented by the United States to the State of Florida, and Wilson Cypress Company hereby requests your Board to adopt a resolution to this effect and to make a deed to Wilson Cypress Company whenever the lands are so patented by the United States to the State of Florida and, in meantime, that no action be taken by your Board conveying or agreeing to convey or encumbering or agreeing to encumber the title to said lands.

In order to have this question settled and determined, if your board has adopted the views of your counsel as above mentioned, we will be pleased to arrange with him for a friendly suit in court to have these questions determined, and Wilson Cypress Company will pay the Court costs of such suit or suits.

We also request that your minutes show the presentation of this letter to the Board as a request by Wilson Cypress Company for a conveyance of these lands.

Very truly yours,
(Signed) COOPER, COOPER & OSBORNE.

Counsel of the Trustees advised this Board that he had received an opinion through Hon. Samuel Herrick, which had been recently handed down by the Department of the Interior, denying the protest of this board on the application of John G. White for the survey of Lone Cabbage
Island and three other islands in Lake Worth and granting the protest of this Board with reference to certain other islands in the said Lake. Counsel recommended to the Trustees that it immediately have a survey made of Lone Cabbage Island and the other three islands as to which the said protest was denied, with a view of determining their physical character, and that when such survey had been made, application be submitted to the Department of the Interior to reopen said case with a view of securing an adjudication from the Department of the Interior to the effect that the said islands were not subject to survey, but belonged to the State of Florida, either by right of sovereignty or by virtue of the provisions of the Swamp Land Grant Act.

After a full consideration of the said recommendation the Trustees ordered that the survey as requested be made and that its counsel take such other steps as were necessary to protect the right of the State in the said islands.

Counsel for the Trustees reported that he had made a thorough investigation with reference to the amount paid for bonus or privilege for mining sand and gravel in public and private property and that the maximum price for such privilege, and in fact the general price prevailing throughout the southeast part of the country, was 10 cents per ton for gravel and 5 cents per ton for sand.

Mr. George W. Parkhill of the Seaboard Dredging Company appeared before the Board and stated that his Company was ready to enter into a contract with the Trustees for mining sand and gravel in the Apalachicola River near River Junction, and that in fixing a price for such privilege, suggested that the Board take into consideration the variation in freight rate from this and other points where such products are mined.

In view of the fact that two members of the Board were absent Saturday, December the 9th was set as a date for consideration thereof by the full Board and requested Counsel to notify Mr. Parkhill and Mr. Watson, and others interested, of such date.

Upon motion the Trustees adjourned.

ERNEST AMOS, Comptroller,
Acting Chairman.

Attest:
J. STUART LEWIS,
Secretary.

Tallahassee, Florida, December 4, 1922.

The Trustees of the Internal Improvement Fund met on this date in the office of the Governor in the Capitol.

Present:
Cary A. Hardee, Governor.
Ernest Amos, Comptroller.
W. A. McRae, Commissioner of Agriculture.

The Trustees met to consider the sale of certain submerged lands offered for sale on this date. An island or submerged tract of land in Lake Worth, lying in the Northeast Quarter of Section 27, Township 43 South, Range 43 East, containing .03 of an acre, more or less, having been advertised thirty days in the Palm Beach Post, a newspaper published in the county in which the sail lands lie, as required by law, and this date set to receive bids, Mr. G. W. Bingham bid $500.00 and check for that amount was attached. Upon motion the bid was accepted and deed ordered issued to Mr. Bingham.

Also a submerged tract of land in Lake Worth, known as "Inlet Island," lying in the West Half (W1/2) of Section 34, Township 42 South, Range 43 East, containing 11 acres, more or less, having been advertised for thirty days as required by law in the Palm Beach Post, a newspaper published in the county in which the lands lie, and there being no objections, or no objections having been filed, it was ordered that further consideration of the sale be continued.

A letter was received from Mr. Jesse Montague, Secretary of the Citrus County School Board, assuring the Trustees that the Two and a Half acres conveyed to the Board of Public Instruction of Citrus County in Deed No. 17005 did
not cover the land on which the School House was located, and the Citrus County School Board having reconveyed same to the State, requested a deed for Lot 12, Section 34, Township 18 South, Range 16 East, containing 10 acres, agreeing to pay the difference of $7.50, as said lot embraces an island on which the School Building is located, and only embraces 10 acres.

It was ordered that the Commissioner of Agriculture prepare a deed for said Lot 12, Section 34, Township 18 South, Range 16 East, upon receipt of said amount of $7.50.

Upon motion the Trustees adjourned.

CARY A. HARDEE,
Governor, Chairman.

Present:

Ernest Amos, Comptroller.
J. C. Luning, Treasurer.
Rivers Buford, Attorney General.
W. A. McRae, Commissioner of Agriculture.

The Trustees having been advised that parties were removing sand and gravel from various rivers and lakes in the State, and having decided that the State was the owner of these deposits, and application having been made by Messrs. Parkhill, Watson and Mullen to purchase sand and gravel from the bed of the Apalachicola River, the matter of sale of said sand and gravel was considered and it was decided that as no provision had been made by the Legislature for the sale of such deposits, it would be proper to issue the above named parties a permit to remove sand and gravel from the Apalachicola River. After investiga-
tion by Special Counsel of the Trustees that 3 cents per ton for sand and 6 cents per ton for gravel would be a fair price to be paid for this material, the Counsel was instructed to prepare such permit to Messrs. Parkhill, Watson and Mullen.
